ST. LOUIS, Feb. 25th.—In the United States Circuit Court to day Colonel Hatch, counsel for McKee, filed an affidavit in support of the motion for a new trial. Some editorials in the *Republican*, which were claimed to have served to prejudice the case against defendant, were also filed. The affidavit mentioned is by Watson Foster, of Pike county, Mo., who charges H. F. The Court ordered defendant to have leave till the 5th of March to give additional affidavits. The prosecution has till ten days thereafter to answer the same and the defendant until the 20th of March to file the testimony in rebuttal.

Salt Lake News.

SALT LAKE, Feb. 25th.—The Democratic Central Convention was held this evening for the purpose of affecting the organization and adopted resolutions arraigning the Republican party for disregarding the Constitutional obligation; demanding the separation of church and state, that the existence of the Democracy in Utah is a standing menance and reproach to the present Government. Radical reformation in Utah and municipal administration is demanded.

New York News.

NEW YORK, Feb. 25th.—The cold snap has abated considerably to-day. Thermometer 29.

In the Tweed civil suit to-day, Gov. Tilton was placed on the witness-stand to testify, remarking upon the investigation of frauds against the city in 1870, he gave his recollection of Garvey, Tweed & Co. Quite a large crowd gathered to hear him testify, although nothing important was developed.

Louisiana.

NEW ORLEANS, Feb. 25th.—In the House to-day a resolution was adopted that a committee of seven be appointed to investigate the charge against Gov. Kellogg, and to ascertain if the charge is true, and if so to prepare articles of impeachment. Speaker appointed Young, Kidd, Wiltz and Jeffreys, Democrats, and Loviss and Demar, Republicans.

Mississippi.

JACKSON, Feb. 25.—The legislative committee will probably report in favor of impeaching Gov. Ames. The charges are eleven in number.

Appointments.

WASHINGTON, Feb. 25,—The President sent the following nominations to the Senate this afternoon: Warren Bristol to be Asst. Justice of New Mexico; Thos. B. Eatner to be U. S. Attorney for Mexico; Fred Lord, Collector of Internal Revenue of Nebraska.

Beecher.

BROOKLYN, Feb. 26th.—Now that the Advisory Council has closed and its results have been given to the public, Brooklyn experiences a feeling of relief. The verdict by the Council on the questions therefore is the subject of general discussion and comment. The *Eagle* says the Council really leaves matters where they were with the advantage to Plymouth Church, and that it sustained her on every point. We think the effect upon the doubtful will be to gravitate them to the Beecher side. Those who have made up their minds against Beecher's innocence are not likely to be changed. There is not apparently the slightest probability that any inquisition would result differently from what this one did.

Arrested.

NEW YORK, Feb. 25th.—A broker, F. H. Eccles, was arrested yesterday, on warrants issued out by the Ohio Valley Bank of Wheeling, Virginia, on a charge of fraud. Eccles, it is alleged, decamped and went to Canada with about $40,000 belonging to the bank entrusted to him to purchase government bonds.

Babcock.

NEW YORK, February 26th.—A special to the *Tribune* from Washington says Babcock will retire from the White House, and probably be continued on duty in Washington as Major of Engineers and Superintendent of Public Buildings and Grounds, and also as Chief Engineer of government works.

Levi P. Luckey, who is in reality the President's Private Secretary, will also retire.

Another effect of the Babcock trial will be the speedy displacement of District Attorney Dyer.

It is understood that Babcock in order to remove from his reputation, as an army officer, all stain incident to his accusation, indictment and trial, will demand an immediate investigation before the Military Court of Inquiry.

Boyton.

NEW ORLEANS, Feb. 26th.—Capt. Boyton completed his one hundred miles at 5 o'clock last night. He made the trip in twenty-five hours.

War in Spain.

MADRID, 25th.—The Gazette official publishes the details of the submisions which have so far been made by the Carlists. It is estimated that in addition to the four battalions at Anderwin a total of 1400 persons have returned to their allegiance. Among them were Marquis of Villaverde and Generals Blanco and Palacio, who have offered submission to the Spanish Consul at Bayonne. King Alfonso with 30,000 men and 40 cannon left Tolosa for Alsassna.

French Republicans.

PARIS, Feb. 25th.—At a meeting of the Liberal Republicans held to-day at the house of M. Thiers it was decided to agitate the question of the Government granting amnesty to political offenders.

SUNDAY,.....FEB. 27, 1876.

NEWS OF THE MORNING.

The steamship China has arrived at San Francisco with Japanese goods for the Centennial.

By the accidental discharge of a self-cocking pistol yesterday the San Francisco Chief of-Police narrowly missed shooting the property clerk at the City Jail.

Emily K. Farnham and John Farnham were divorced at San Francisco yesterday morning, this being the second dissolution.

It is understood that General Babcock handed his resignation to the President as Private Secretary several weeks ago and the President refused to accept it. It is now reported that General Babcock telegraphed insisting upon his resignation being accepted and Grant Jr. is understood to be his successor.

A great battle is reported in Herzegovina and Turks defeated.

Interesting correspondence has taken place between Secretary Fish and the House Committee on Foreign Affairs, the subject being Minister Schenck. It would seem that Schenck has not resigned his position as Minister.

How did TEMPLE & WORKMAN loan to NORMAN C. JONES $25,000 on property to which he had no title beyond a mere agreement to convey, and upon which he had paid the petty sum of about a thousand dollars? Let the bank and Assignees answer. And how is it this is put upon collectable claims? The public and creditors are referred to a suit commenced in the District Court yesterday—A. WEIL vs. TEMPLE & WORKMAN et al.

ASSEMBLYMAN LAMBOURN yesterday introduced a bill creating the county of Santa Ana, defining its boundaries and providing for its organization. It was referred to the Committee on Counties and County Boundaries, and when it leaves that Committee it will carry with it a recommendation that it do not pass. The HERALD'S Legislative reporter says the entire delegation from this county is opposed to the creation of the new county. We may add that this is the sense of nineteen-twentieths of the voters and tax-payers of Los Angeles county.

SENATOR HAYMOND asks an appropriation to erect a monument in the capitol grounds. He does not say what individual, folly or virtue the column is to commemorate nor does he define the width, breadth and heighth of the shaft, but in the absence of object and details we object just as we should if we had them all. The State has already erected a monument considerable in size and fearful in cost at Sacramento. There is not the slightest occasion for further effort in that direction. In after ages the taxpayers will look at the capitol building and curse the folly of their forefathers. We regret the necessity for opposing this last effort of our Sacramento friends to get their spoon into the State Treasury, but we prefer the botanical garden to the monument.

A FEW evenings ago, at Stockton, the Republican State Central Committee presented the Republican Central Committee of San Joaquin county with a flag, and the event was made the occasion for a few Republican speeches, which were intended as the opening guns of the Presidential campaign in this State. The principle speakers were HENRY EDGERTON, of Sacramento, and ex-Governor WOODS, of Oregon. The remarks of both gentlemen were to the effect that the Republican party was the only party that could hold the Union intact—and it must, therefore, be maintained in power. The people were told that to elect a Democratic President, was to give the slaveholders power over the whole government. This bosh and nonsense is the key note of the campaign. Do those frothy gentlemen suppose the people are so wanting in intelligence as to accept such utterances as fact?

A Harmony Hater.

The bill prohibiting the teaching of music and foreign languages in the public schools will cause the aiming of a thousand rocks at the heads of its supporters should they presume to offer themselves for office hereafter. There may be reasons for prohibiting the teaching of languages other than English in the public schools. Ours is a cosmopolitan nation—a nation made up of people from almost every country on the face of the globe. It might be urged that if we teach one foreign language in the public schools we should teach the mother tongue of all our foreign born citizens. This would be an unreasonable and unjust argument and would not be entitled to consideration even were it urged, because by far the greater proportion of those who come from across the seas to make their homes with us, are the natives of two or three nations. The languages generally spoken in the United States do not exceed four or five in number and to teach these in public schools would perhaps confer a greater good on a greater number than many of the studies now insisted upon. But to legislate music out of the public schools is to strike a direct blow at culture and refinement. Music is one of the enobling sentiments of humanity. It is a moralizing power productive of greater results for good than law and penalties. It is the creation of a higher sense and the expression of a purer feeling. What shall be said of the man who will write a statute against cultivating the musical intelligence of children. He is only fit for treason, strategems and spoils. He is worse than an ass for even that much denied animal seems to have a notion of the harmony of sound. He is below the beasts for they were charmed with the music of Orpheus. There is music in everything. All the world sings save and except only the miserable misanthrope who would prohibit the teaching of music in the public schools. We would not be that man for all the silver in the Comstock lode.

Archer's Bill.

ARCHER'S freights and fares conundrum was up before the House yesterday, and after numerous amendments by its author and others, went to engrossment. When it comes up again it will be again amended, pruned and polished, until it will no more resemble the original than its author resembles a statesman. We doubt if it is within the power of the Legislature to enact a practical law touching on freights and fares. It is a subject very difficult to handle, and it is more than doubtful if a law equalizing the rates on all the roads in the State is desirable. The railroad people offer an abundance of evidence to prove that rates on which one road will realize a profit will involve a heavy loss on others. The roads doing a large amount of business can be operated on a lower rate of charges than those running through as yet but partially settled sections. Mr. ARCHER seeks to adopt a uniform rate of railroad charges throughout the State. That he will succeed in presenting a bill that will satisfy those who favor such legislation and avoid destroying the usefulness of a number of roads, few intelligent men believe. The bill he has introduced shows that he does not understand the subject, or that he is actuated by animus toward railroad companies. Both of these conclusions are probably correct. He certainly is ignorant of the first principles of railroading, and if it is true that he charges on the Central Pacific Company the responsibility of his defeat for Speaker of the House, his bill is no doubt intended to avenge himself on the Company. FREEMAN attempted a similar feat at the last session, but did not succeed and a like failure will result to Mr. ARCHER. If his bill becomes law, as we presume it will, it will be shorn of the impractical features he has incorporated, and receive the Governor's signature in such a shape that it will not injure railroads and therefore fail to appease his anger. Southern California is deeply interested in the acts of the Legislature touching railroads. Our roads are all new and for the most part traverse a but partially settled country. Anything militating against the operations of these roads or that will obstruct work on those roads now building, directly affects the prosperity of this part of the State and is opposed by our entire community.

The Wrecked Kalorama.

The last advices received from San Buenaventura are no more favorable concerning the wreck of the Kalorama. All hopes of saving the unfortunate ship are now given up. The following dispatch was received yesterday by Mr. H. McLellan, Agent of the Goodall, Nelson & Perkins line of steamers in this city. It explains very briefly the manner in which the vessel was wrecked and her present condition:

SAN BUENAVENTURA, Feb. 26th.—H. McLellan, Agent:—Came on to blow. Had to let go lines in a hurry. One got in the propeller and stopped the engines. Hove in a head line. Buoy was hauled to ship. Anchor of buoy did not hold, and brought buoy and moorings home. Let go anchor. Failed to hold. Drifted into trough of sea and ashore. Seventeen feet of water in hold now. Stern-post started and end timbers open. Prospects for saving her slim. SAGER, Purser.

The Kalorama was a sound ship with a freight capacity of 1,000 tons, and was probably worth from sixty to seventy thousand dollars. She had a partial cargo of grain taken on at San Diego, and some 400 hogs shipped at Santa Monica. She had put in at San Buenaventura for an additional lot of hogs. There was probably some insurance on the vessel and nothing on cargo. The hogs belonged to Mr. Farley, of Los Nietos.

Captain Elliott, of the Kalorama, has always been considered a careful seaman, and the circumstances of the wreck, as explained in the telegram of Purser Sager, would seem to indicate that the calamity was entirely beyond human intervention. This additional blow will fall heavily upon the Steamship Company, as the Kalorama was one of their most reliable boats, and her destruction dates second in the list of casualities during the last three months.

"The proportion of the married among the insane is smaller than that of the unmarried." Undoubtedly. A man who has to scratch around and make a living for his wife and eleven children, couldn't be insane if he wanted to. He hain't the time.

"No, sir," said a weary looking man on a street car to an individual by his side, "I wouldn't marry the best woman alive. I've been in the dry goods business too long for that."

There will be no tickets at the Centennial. The price of admission will be fifty cents, and every visitor will have to provide himself with a fifty cent piece, as small change and quarters will not be taken.

Legislative Proceedings.

SACRAMENTO, Feb. 23d.—There was no session of the Senate to-day, that body having yesterday adjourned over until Monday to give the Committee an opportunity of passing upon the great number of bills upon their files.

The Assembly met at 11 A.M.

On motion the House took up for consideration out of order Assemblyman McCarthy's apprentice law, and after the reading the rules were suspened and the bill passed.

Lambourn, from the Committee on Agriculture, reported in favor of a trespass law for San Diego county.

Murphy, of Del Norte, in accordance with notice given, moved to reconsider the vote by which the House indefinitely postponed the Transportation Commissioner bill. The motion prevailed and the vote was reconsidered and made the special order for March third

New bills were introduced: By Lambourn, by request, an act to create the county of Santa Ana, to establish the boundaries thereof and to provide for its organization, was read and referred to the Committee on Counties and County Boundaries. By Knott, repealing Section 3,408 of the Political Code, concerning the issuance of certificates of purchase of the State lands. By Carson, amending the Code of Civil Procedure, concerning the office of Court Commissioner, providing that said officer shall be regarded as a judicial officer under the code, in the exercise of his powers. Also, providing further, that wherever in the code it is provided that an act may be done by the court or Judge, ex parte, except orders or writs of injunction, the same act may be performed by a Court Commission.

By Gelwicks: An act to prevent the destruction of timber on lands belonging to the State, providing that any person committing waste or destroying timber upon the sixteenth or thirty-sixth sections of school lands, or lands in lieu thereof, at a time when full payment for the land has not been made, whether the person offending is the claimant or not under the State title, he shall be punished by a fine not exceeding $1000.

By Birney: An act to appropriate $500 to build a monument over the graves of State officers in the State burying ground.

By Archer: By request, an act making all religious, social, benevolent and learned associations corporations in cases where they have heretofore been acting under the form and manner of corporations, and covering all defects existing prior to this act.

A resolution was adopted correcting an error in the motion of yesterday which made the Archer bill the special order for March 29th. The intention of the mover was to set the bill for February 29th. The House made the necessary correction, and the Archer bill will come up for final passage on next Tuesday.

The House then passed the Senate bill legalizing certain purchases of public lands.

The Senate bill reducing the compensation of both houses of the Legislature was made the special order for March 2d.

At 4:30 the House adjourned until Monday morning.

There is little probability of the bill dividing Los Angeles county and creating the county of Santa Ana becoming a law, as the entire delegation from Los Angeles, both in the Senate and the Assembly, are strongly opposed to the measure and will discountenance it by every means in their power. Judge Evey, of Anaheim, is here and represents the divisionists. He will appear before the committee of the Assembly on counties and county boundaries during the ensuing week in support of the bill. Cabinet Meeting.

WASHINGTON, Feb. 26th.—The Cabinet meeting yesterday was attended by all the members except Secretary Fish, who was too unwell to leave his house. The session was confined to executive business. The question of issuing subsidiary coin was discussed but no decision reached.

Babcock's Resignation.

WASHINGTON, February 26th.—It is understood that General Babcock handed his resignation to the President as Private Secretary several weeks ago, and the President refused to accept it. It is now reported that Babcock yesterday telegraphed, insisting on his resignation being accepted. U. S. Grant, Jr., is understood to be his successor.

FOREIGN.

Breeze in the Canadian Parliament,

OTTAWA, Ont., Feb. 26th.—Hon. Mr. Cartwright, Minister of Finance, presented a report to the Parliament yesterday. He says he did not propose any increase in the tariff, but to meet the reserve by reducing the estimates $2,500,000. He ascribed the prevailing depression to the general inflation protecting the policy of the United States, and had also injured Canada. The policy of Cuba was patience and economy. Dr. Lepper attacked the Minister's policy. Premier McKenzie also spoke and held that the true policy of Canada was to keep it a cheap country to live in and so incourage immigration.

Flood in Hungary.

PESTH, Feb, 26th.—The great flood in Danube continues. Old Buda is almost entirely under water. The waters have closed trade, and other matters are at a standstill.

Castellar.

LONDON, Feb. 25th.—A dispatch to the *Standard* from Madrid says that during the debate in the Cortez on elections Senor Castellar charged that all kinds of violence and abuse had been practiced at elections in Barcelona and Abeda. He offered to renounce his immunity as a deputy in order to prove his assertions and declared his intention on some future occasion to defend and justify his acts as dictator.

Cities to be Abandoned.

EDITOR HERALD: There are so many phases of the social picture to be considered that one is at times puzzled to choose. But the humanitarian will invariably recur to that view which takes in the broadest conception. Bearing in mind that a people, to be happy and successful, must be healthy; hygiene takes precedence of æsthetics. Harmony requires such a blending of useful and beautiful that it seems impossible for the philosopher to go astray, provided the philosophy be pure and honest; therefore this sharp and persistent contending for an equitable distribution of labor and its rewards. The conservation of the peace well being of society requires that every member should not only be self-sustaining, but sound in body, mind and morals. The surest mode of achieving this result is to insist upon each member receiving a thorough industrial training. No knowledge is promotive of social well-being without this ingredient—the practical development of the physical by the actual performance of the manual exercise attending productive labor. Moreover, this labor, to be of the utmost benefit, should take in such a variety of employments as to give thorough self sustaining knowledge. For the average individual, the city does not afford the school for obtaining this knowledge. In fact, if one desires it in its best and normal shape they must seek it in the rural districts. The city is an after-thought—a contingent not at all necessary in any view we may take of industral education. For, as the world grows older, cities will come to be the exceptions (and less frequently recuring exceptions at that). Rural life is the normal condition of mankind and the best informed. Now look upon cities as excressences to be avoided. They contaminate, and this contamination reaches all, whether urban, suburban or rustic, none can escape. The vices and disorders that afflict humanity originate in cities, and to obtain a respite and cessation from these afflictions, cities must be abandoned. Cholera, the more malignant types of eruptive and other fevers, and numerous other diseases could not exist but for cities. The earth was made to neutralize the obnoxious effluvia and emenations of animals, if properly distributed. To teach these truths and the way to avoid disorders of every name and nature, is one of the primary objects of the organization of the Southern Californsa Sanitary Hotel and Industrial College Association. Land enough has been secured for the inception of the work within nine miles of Los Angeles and six miles from the ocean, at an altitude of one thousand feet or more above its level, where pure water and air contribute to make the location desirable. The land is suited to the propagation of fruits and industrial works of various kinds can be carried on. We invite co-operation.

Downey City Items.

[From the Courier.]

The weather, during the first part of the present week, was decidedly warm for the season. There were appearances of rain Thursday and Friday.

For the past two weeks corn has been coming in to this depot in immense volume. There is scarcely a half hour during the day that teams are not waiting at the depot to discharge. The large shipments will have a tendency to 'bear' the market.

The sulphur well on the Santa Gertrudes, which was struck not long since, continues to flow steadily. An able chemist, who tested one gallon of the water, sent to him by Dr. Fulton, pronounces its medicinal qualities equal to any in the world. It is intended to shortly construct a large hotel, or sanitarium, at or near the well, and such an enterprise would no doubt pay well, and result advantageously to the people of this whole section.

Anaheim Items.

[From the Gazette,]

The ball which came off last night seemed enjoyed by the participants, who consisted of the usual number of "fair women and brave men."

The train was delayed last night by the engine having been used for an excursion. It did not reach here until two hours after the usual time

Another car load of brea was shipped this morning to Los Angeles, for the use of the Gas Co. It has, we are told, fifty per cent superiority over that procured near the city.

The temperance lecture, delivered last night at the Presbyterian church, was attended sparely. The lady lecturer, Mrs. Shepherd, had succeeded in corralling but few of the sheep. This was probably owing to the ball coming off at the same time.

We would again invite the attention of our citizens to the call for a mass meeting to be held to-night at Enterprise Hall. The object of the meeting is to adopt some feasible plan for raising means to erect a new school building. The present school buildings are inadequate to accommodate our school population, and are certainly no credit to our town, viewed from an aesthetic standpoint. A handsome school house surrounded by tastefully laid out school grounds, would contribute more to enhance the value of property and facilitate the growth of our town than any other public enterprise we can inaugurate. We hope there will be a general turnout of our citizens.

Messrs. Lewis and Davis returned last night from San Diego county. They succeeded in capturing the stolen horses and brought them back with them as far as their jaded condition would allow. One of the horses was found at Julian and the other at Oak Springs, on the stage road between San Diego and Julian. The animals had been traded for fresh ones, on which the thieves had made good their escape. When last heard from they were at Sweet-water, near the Mexican line, and were travelling toward Lower California.

I've never any pity for conceited people, because I think they carry their comfort about with them.

The Settlers' Meetings.

The Los Angeles County Settlers League met on Tuesday evening, pursuant to adjournment. The ball was set in motion by a well directed effort to take up a collection to pay for the benches and other articles broken at the boisterous meeting of the evening previous. As a means of giving the meeting a good start it was a success; as a financial speculation it was rather small potatoes, and resulted in a gathering of short bits and quarters to the amount of three dollars and seventy-five cents. Very animated discussion followed on various questions pertaining to the business of the League, which grew warmer as the evening advanced, until nearly the whole of the association were talking at once, and the meeting was adjourned. Several parties endeavored to form new leagues from the dissatisfied portions of the old, and the result was that before morning four separate meetings were held and broken up without succeeding in anything but rendering confusion worse confounded. Another meeting was held on the Lomas de Santiago ranch yesterday morning, the result being somewhat similar. A meeting of the old original league was held at Tustin last night, from which we have as yet received no information.—*Anaheim Gazette, 24th.*

Old Si on Bankruptcy.

"Bos, is you got any ole pair gloves 'round dat you don't wan't; de cold is mighty nippin' dis mornin'?"

"I'll see when I go home, Si; but you ought to buy you a new, warm pair."

"Yes, sah; dere's lots ob tings I ought to buy, but how I gwine to buy um?"

"Why, ain't you working and making money these winter days?"

"Oh, yes, sah; I's workin' an' makin' some little, but 'fore de Lord it's a little shure enough, sah! 'Sides dat, I don't get it all!"

"How is that?"

"Well, sah, de times is mightly disjinted, and dere's nuffin' much gwine on now, so dey tell me, but payin' ob taxes an' bustin' up in de bankrupt courts, sah. The case was considered well made out.

The mechanical work of the Cathedral must be a success, if for no other reason that Father Mesmer has interested himself so actively. For piety and religious energy we know of no one so enterprising as Mesmer. Of course we use the venerable term, father, in a secular, not a religious sense.

F. Adam, merchant tailor, has just received an elegant lot of cloths, cassimeres and suitings of the latest popular patterns. The stock is probably the largest of its kind to be found in the city, and no one can fail to be suited in making a selection. Call on F. Adam, Spring street, for yourstylish suits. sep1tf

Moore's Restaurant, on Commercial street, is the proper place to go for a good meal, with a good cup of coffee or tea to drink with it.—There is probably no restaurant on the Pacific coast where so many of the substantials and so many of the luxuries may be had for 25 cts. Don't forget the place—Moore's Restaurant, Commercial street. Private eating rooms have been neatly fitted up for the accommodation of ladies. 15-tf

After concluding their engagement in this city, Piper's Opera House Company will proceed to Santa Barbara.

Page & Gravel have an extensive stock of wagons on hand ranging from light express to heavy farm. There is no necessity for our people to leave Los Angeles to procure anything in their line.

A special dispatch to the HERALD last night from Sacramento says Wells, Fargo & Co.'s detective, who has just returned from Bakersfield, intimates that there is something wrong in the accounts of the Treasurer of Kern county. The delinquency is some way connected with the recent bank robbery. The detective was very reticent, saying it was no affair of his and expressed an unwillingness to talk. It is probably an unfounded rumor growing out of the bank robbery.

Chief Carrillo yesterday arrested Vicente Acuña, who perpetrated a bloody attack on a companion named Peralta at a ranch below the place of Mr. Coronel, a mile and a half from the city. Acuña stabbed his victim five times with a pair of prunning shears, striking him three times in the head and twice in the back. He was then in the act of dragging the man into a secluded spot to complete the murder when he was stopped by an old gentleman who had witnessed the affray. Acuña was released on bail. Meanwhile Peralta, the wounded man, is said to be in a dangerous condition.

Piper's Opera House Company presented their last performance in this city last night. "Rip Van Winkle" was performed very acceptably, with Mr. J. B. Ashton as principal character. In the afterpiece, "Perfection," Miss Major Pauline Cushman made her first appearance in our city. The wide-spread fame of this lady as the Union Spy of the Cumberland drew many curious auditors to the theater. Piper's Company will leave many pleasant memories of their entertainments among the people of Los Angeles, and we trust that they may return at no distant day to renew their favorable acquaintance.

Two of our items got badly mixed the other day. One was about an ex-M. D. and the other gave the cost of burying a dead Indian; the printer, through mistake, put them both into one paragraph. Now we learn that in consequence of our blunder Dr. Dunne, the ex-M. D. referred to, is threatening our utter annihilation. We beg the gentleman's pardon and have made this explanation so that in case our dead body is found lying on the street some morning it will be known that we died penitent.

The Anaheimers want to incorporate their town because they have "street stalking of stock, a bad condition of the sidewalk, and a number of drunken men who are sometimes ripping around with impunity." Very good, neighbors, but all this is nothing compared with a full-fledged City Council of wooden heads. Put away your vain delusion; with a municipal government you would have more street stalking stock, more bad sidewalks and more drunken men. Don't take in any more evils.

The Anaheim *Gazette* says: A sea captain was a few days ago driving down to the landing from here, and being literally a fish out of water, couldn't pilot the bloody craft to the satisfaction of the livery team he was driving. When he reached his journey's end it was this spectacle that greeted the eyes of the admiring crowd: The captain bruised and lame walking with two horses which were snorting and excited, and behind came a wagon with the buggy-top in it, and the buggy itself in tow. Moral—Let the shoemaker stick to his last.

We regret to learn that Mr. T. A. Templeton has met with another severe affliction. While at Downey City the other day he fainted and fell from his wagon striking his head on the earth and receiving severe injuries. It is only a few weeks since Mr. Templeton recovered from his fall from a horse which came very near resulting fatally.

Painful Accident.

Last Saturday a little boy named Arthur Wright, whose parents are employed at the Asylum, met with a painful accident, the marks of which will in all probability go with him through life. It seems that he and some other boys were engaged in firing a toy cannon, having procured a small flask of powder for the purpose. The piece had been loaded and primed while the powder flask was carelessly deposited on the ground in dangerous proximity to a burning stick, used as a match in touching the cannon off The piece was discharged prematurely a spark being also communicated to the flask, causing it to explode. The child was assisted home and medical assistance immediately called. Yesterday Dr. Langdon extracted over thirty grains of powder from the face and eyes of the little sufferer. It is not thought that the child's eyes have been permanently injured, though his face will necessarily be considerably disfigured. This is another lesson to parents who carelessly permit their children to play with gunpowder and fire.—*Stockton Herald Feb. 21st.*

One cordial Granger said to another "I am digging a well now; when you are in my neighborhood drop in and see me."

A Sham.

The case of Cora Phillips was tried before Justice Gray yesterday morning, and so much interest was developed in the affair that the Court room was crowded with spectators until there was not even standing room to be had. Gen. Howard, District Attorney, appeared for the prosecution and Col. Stanford for defense. It was a difficult matter to procure any very direct and positive testimony. Those who knew most about the accused were a little difficult about coming forward and relating their experience, and who took the witness stand could only testify in a general way. In fact, matters got on in the trial very poorly, and we think that if the witnesses and the jury had changed places, and some of the latter had told all they knew, there would have been quite a different face on the matter However, the general character of the accused was proven to be bad by several prominent citizens, and Officer McFadden produced some ugly facts that will hardly bear publication. When the argument came, the defense was mainly based on technicalities of law and definitions of terms. The jury, after retiring for a few minutes, brought in a verdict of not guilty. We must accept this decision as an unbiased judgment according to the law and evidence, as the gentlemen who composed the jury are most of them well known in the city to be sinless in such matters and capable of casting the first stone, scripturally speaking. Thus the attempt of the Council to clear the thickly settled portions of the city of bawdy houses, has fallen to the ground. Another trial of a similar character will take place before Judge Carrillo next Tuesday, but we hardly expect any better results from it. If the Council are in earnest in their effort (which we very much doubt) they will find it necessary to enact more stringent ordinances, or have a remodeling of our Court organizations. A trial like that of yesterday reduces itself to a complete farce. Here was a woman, one of the most notorious in Los Angeles, whom even the little children would point their fingers at on the street, and it is impossible to make an intelligent and unbiased Jury believe that she is an immoral character. They cannot be convinced that she is prosecuting a calling that is destroying the peace, prosperity and morals of our city. Out on such two-faced shams of pretended virtue and justice.

Sold—"Sheep."

The Los Angeles *Express* copies from our morning contemporary an article about a "Mysterious (?) Tragedy," which imposes upon no one here. You have decidedly been sold with that article of "news."—*Santa Barbara News.*

A Mexican considerably gone in aguadiente was taken down Spring street to the calaboose by two officers last night. Sir Mexican's horse which he had ridden into town was led behind, and as the cavalcade passed along the street he called loud and long, "*Ancilio! ancilio me!*" which being interpreted means, "Rescue me." But nobody helped him out of the scrape.

There was a "Washoe zephyr" at Whitewater yesterday which blew down Van Dyke's boarding house. The railroad men are now compelled to take their meals in the construction cars. The name of Whitewater has now been changed to Windy Station.

ETC., ETC., ETC.,

—IN—

POMONA

—AND THE—

Pomona Tract,

—ON—

TUESDAY, WEDNESDAY AND THURSDAY,

Feb. 22, 23 and 24, 1876.

SPECIAL EXCURSION TRAINS

Will be run daily during the sale, leaving Los Angeles in the morning, giving the excursionists a fine view of the celebrated San Gabriel Valley en route to and from Pomona. A pleasant day in the pleasantest valley and settlement on the coast, and a return home again before night.

☞ EXCURSION TICKETS CAN BE HAD AT THE OFFICE OF THE COMPANY, NO. 1 SPRING STREET, LOS ANGELES.

POMONA

Has been selected as the headquarters of the Amsterdam Company, as an outlet to the celebrated Temescal tin mines. These mines and the large agricultural section to the North and South of Pomona will build up this place and make it second only to Los Angeles in this county in a very few years.

LOCATION.

The town of Pomona is one mile square, and is most beautifully laid off on either side of the railroad, thirty-two miles East of Los Angeles. It is situated in the San Jose valley, several hundred feet above the sea level, and back some thirty-five miles from the coast in a direct line.

COMMERCIAL CENTER.

It will be the commercial center of the East end of Los Angeles county, being more centrally located than any other station on the railroad—present or prospective.

MOUNTAIN SCENERY.

It is surrounded by most beautiful mountain scenery—Mount Cucamongo rearing its head (snow-capped during a great portion of the year) several thousand feet above the sea, only a few miles to the Northeast.

CLIMATE.

A range of hills cuts off the rawness of the sea-breeze, making the climate more equable and better suited to the invalid than localities nearer the coast, and yet there is a sufficient breeze to keep down the high temperature of the Summer so prevalent back further in the interior.

HEALTH.

As a healthful climate this is superior—the valley being along the foot of the mountains which, from San Gabriel to Cucamongo, is admitted to furnish the best climate on the Pacific slope.

FRUIT.

As a fruit country Pomona cannot be excelled in Southern California. It needs no argument to demonstrate this proposition; no one denies it, and the trees growing in the immediate vicinity prove the fact beyond a peradventure.

RAILROADS.

The railroad facilities are good, Pomona being within one hour's ride of Los Angeles—the Commercial and railroad center of Southern California—and on the main line of the Southern Pacific railroad, which is being rapidly pushed through to Texas.

MORE RAILROADS.

The prospects are also good that the Los Angeles and Independence railroad will cross the Southern Pacific at Pomona, giving the town the benefit of two railroads to Los Angeles and tide water, and eventually an outlet to Texas, Salt Lake City and San Francisco. This is the only town in southern California, outside of Los Angeles, that has a prospect of a second railroad line.

WATER SUPPLY.

The supply of water for irrigating purposes is abundant. The cienegas furnish a large supply of water, and the land company has the right to develop the cienegas and put in artesian wells at their option. Four wells have already been sunk, and in every instance a good flow of water has been obtained at from twenty-six to thirty feet. Four wells will form a good irrigating head. An irrigating ditch has been constructed from the cienegas to the reservoir, which holds two and a half million gallons, and ditches have been constructed from thence to the different parts of the tract. Stock in the Pomona Water Company will be given with the land without extra charge—one share of stock to each acre of land—so that when the land is all sold the owners of the land will own and control the water.

AVENUES AND DRIVES.

Through the center of the town, each way, are laid out avenues one hundred feet wide, at the intersection of which, in the center of the town, is a block set apart for the erection of the hotel. On either side of the town are avenues of the same width. All six avenues will be graded by the Association, and set out to shade trees, making a six mile drive without leaving the town.

BOULEVARDS.

On the East, South and West sides of the town and one-quarter of a mile form the avenues are boulevards, each one hundred feet in width, which will be improved in the same style as the avenues—making over thirteen miles of a drive within a mile of the hotel.

SCHOOL HOUSE.

Plans are already completed for the erection of a school house, to cost $6,000, on a two-acre tract taken from the North end of Lot 1, Block 180, donated by the Association for that purpose. This school house will be the finest in the county outside of Los Angeles. Work will be commenced on the building in March and the structure will be completed at the earliest possible day.

TITLE.

The title to these lands and water rights is perfect, being a United States patent. We refer to Glassell, Chapman & Smiths; also to Louis Phillips, Francisco Palomares and P.C. Tanner, from whom the land and water rights were purchased.

TERMS.

On all sums less than $200, one-half down and the balance in one year at one per cent. interest per month. On all sums over $200, one-quarter down and the balance in three equal annual payments, with interest at one per cent. per month.

WITHOUT RESERVE.

The lands will be sold without reserve, the Association only reserving the right to stop the sale at any time, should prices become unsatisfactory.

LOOK AT THE LANDS.

Persons desirous of looking at the lands can obtain excursion tickets at reduced rates to Pomona, any day prior to the sales, at the Association's office.

IMPROVEMENTS.

A fine hotel, which cost, furnished, about $8,000, has been erected, and is kept by M. A. Marshall in a first-class style. There are also at Pomona two stores, a postoffice, blacksmith shop, wagon shop, restaurant, butcher shop and a number of residences—all of which have been built since August, 1875. There are also a number of houses in process of construction. A fine depot has also been constructed by the railroad company

VIRGINIA CITY, Oct. 29, 1875.

HALL'S SAFE AND LOCK CO.

Gents: I had one of your single door (No. 4) Fire Proof Safes during the late disastrous fire of the 26th inst., and I was unable to get at it to open it until to-day, on account of the great heat and rubbish around it. It was in the second story of a three-story brick building, and was exposed to the heat OVER SEVENTY HOURS. On opening, I found my books all legible and my insurance policies as bright as when put in the Safe, and the Lock worked all right.

You will send me immediately another Safe, the same size, and I cheerfully recommend the Hall's Safe.

Yours, respectfully,
M. ASCHEIM.

VIRGINIA CITY, Nev., Oct. 29, 1875.

HALL'S SAFE AND LOCK CO., San Francisco, Cal.

Gents: I take pleasure in informing you that the Safe purchased of you about a year since preserved my books and papers.

I will want a larger one when I get located.

Yours, respectfully,
M. M. FREDERICK.

We add the following from Portland, Oregon.

Gents: I take pleasure in stating, that in my experience as an adjuster of fire losses, I have always found the Hall's Safe, of Cincinnati, reliable in case of fire, preserving books and accounts in good order, and even the extensive Chicago conflagration, so far as my observation extended, did not result in so damaging any Hall's Safe as to render the contents of same totally worthless.

As a matter of fact, the Hall's safe has a decided supremacy for protection in case of fire.

SEWING MACHINES!

If you are wanting to buy a Sewing Machine, try a new Wilson and you will have no other.

A trial will convince the most skeptical of its superiority over all others, being adjustable in all its parts, every movement being positive, with a perfect tension and adjustable feed. It is simple, strong, durable and cheap, light and rapid running, doing all the different varieties of sewing from the finest fabric to the heaviest cloth or leather.

The latest improved Wilson will not run backwards, thereby avoiding the breakage of needles and thread and necessitating the removal of the goods from the machine while winding the bobbins as is the case with all other machines. HIGHEST PREMIUM AT THE WORLD'S FAIR, Vienna 1873. A very important improvement has lately been added to the Wilson. Call and see it before purchasing elsewhere. To try one is to buy one.

YOUNG MEN

Who may be suffering from the effects of youthful follies or indiscretion, will do well to avail themselves of this, the greatest boon ever laid at the altar of suffering humanity. **Dr. SPINNEY** will guarantee to forfeit $500 for every case of seminal weakness, or private disease of any kind or character, which he undertakes and fails to cure. He would therefore say to the unfortunate sufferer who may read this notice that you are treading upon dangerous ground when you longer delay in seeking the proper remedy for your complaint. You may be in the first stage; remember you are approaching the last. If you are bordering upon the last, and are suffering some or all of its ill effects, remember that if you persist in procrastination the time must come when the most skillful physician can render you no assistance; when the door of hope will be closed against you; when no angel of mercy can bring you relief. In no case has the Doctor failed of success. Then let not despair work upon your imagination, but avail yourself of the beneficial results of his treatment before your case is beyond the reach of medical skill, or before grim death hurries you to a premature grave. Full coarse of treatment $25. Send money by Post Office Order or Express, with full description of case. Call, or address,
